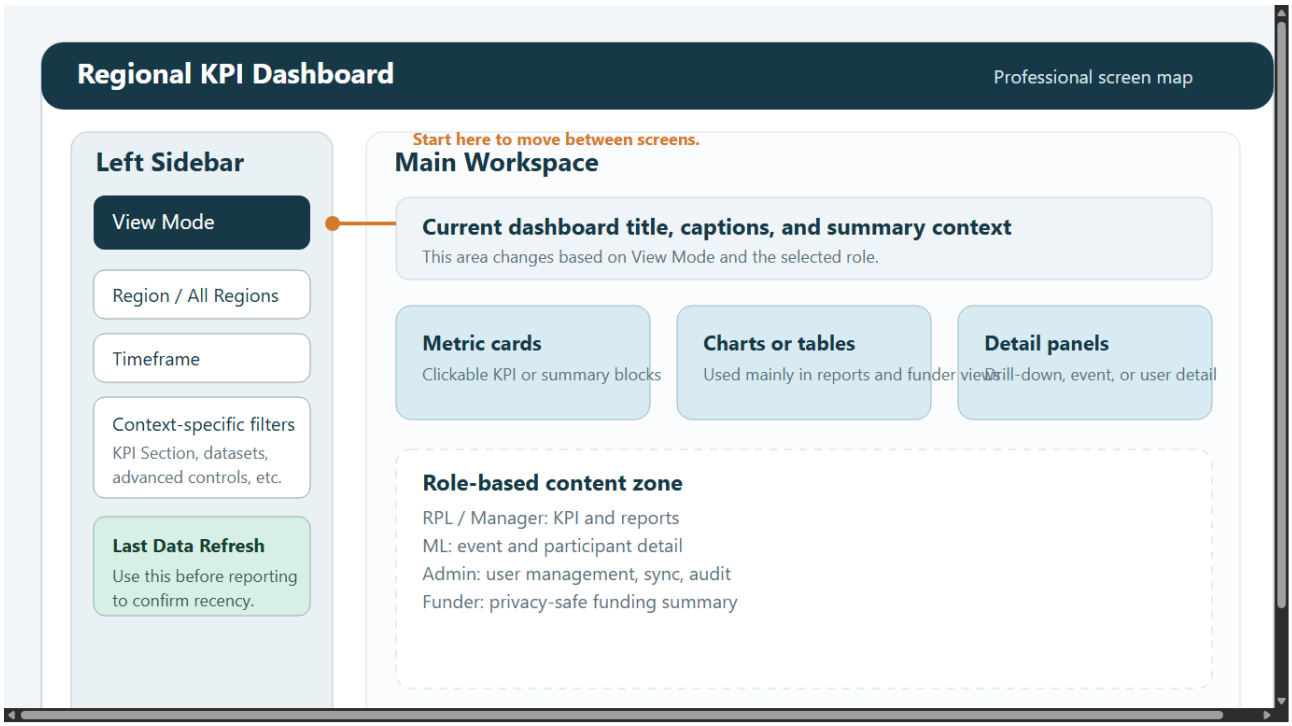
Full Regional KPI Dashboard Manual

Combined handbook for RPL, Manager, ML, Admin, and Funder users



1. Purpose

This document is the master guide for the Regional KPI Dashboard. Use it when:

- onboarding multiple user types
- supporting staff across roles
- checking which role should perform a task
- needing one handbook instead of several short manuals

2. Dashboard areas

The application is organised into these views:

- `Admin Dashboard`
- `KPI Dashboard`
- `Custom Reports Dashboard`
- `Case Studies`
- `Funder Dashboard`
- `ML Dashboard`

Most users move between views using `View Mode` in the left sidebar.

3. Shared concepts

Region and timeframe

Most operational screens use:

- region selection
- timeframe selection

When investigating missing data, start broad, then narrow.

Drill-down

KPI cards can open a detailed popup showing the source rows behind a number.

Last Data Refresh

The sidebar includes a refresh status card showing how current the dashboard data is.

Audit logging

Major changes and important interactions are recorded for governance and support.

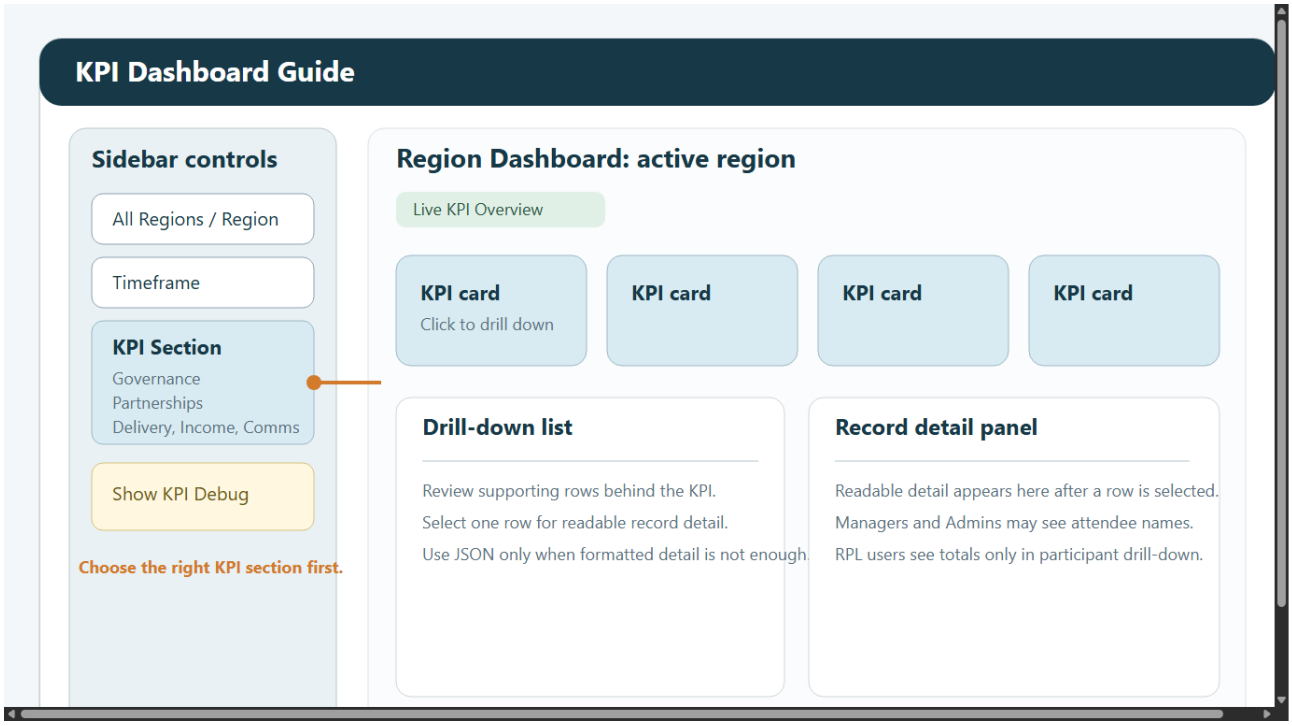
4. Role comparison

Role	Main views	Typical purpose	Key restrictions
`RPL`	KPI, Custom Reports, Case Studies	regional monitoring and self-service reporting	no Admin, no ML, no named attendee detail in KPI participant drill-down

`Manager`	KPI, Custom Reports, Case Studies, Funder, ML	operational management and validation	no Admin
`ML`	ML, Case Studies	event-by-event operational review	no KPI, reports, funder, or admin views
`Admin`	all views	access management, data operations, full reporting	highest responsibility, use admin actions carefully
`Funder`	Funder only	aggregated funding summary	no operational drill-down or personal data

5. Screen guide

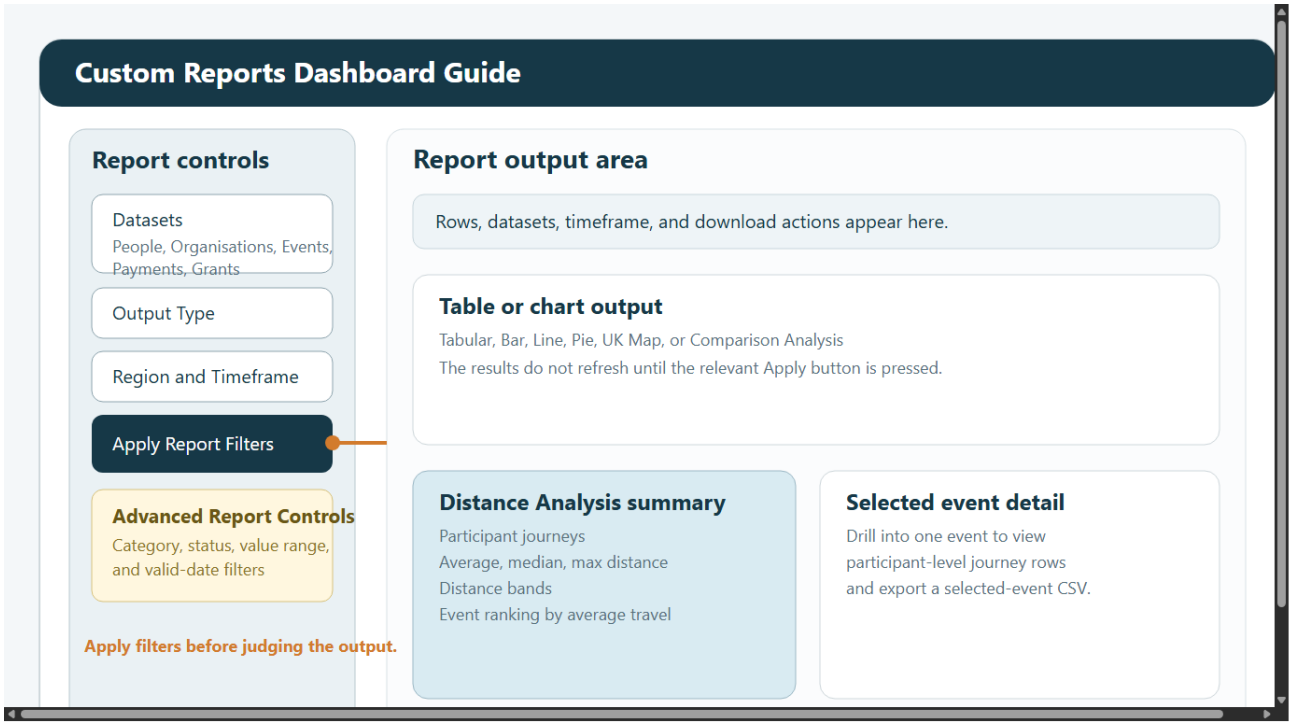
KPI Dashboard



Best for:

- headline KPIs
- governance and delivery review
- validating figures with drill-down

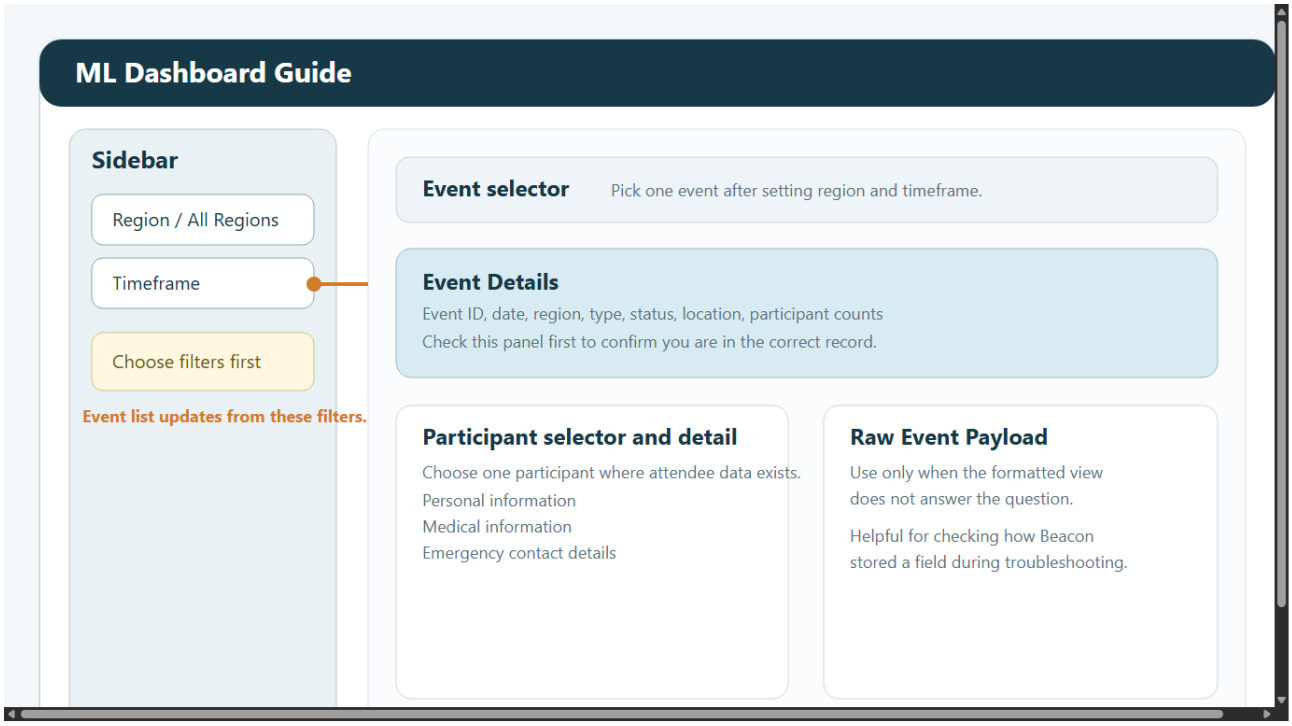
Custom Reports Dashboard



Best for:

- tables and charts
- advanced filtering
- CSV export
- distance analysis

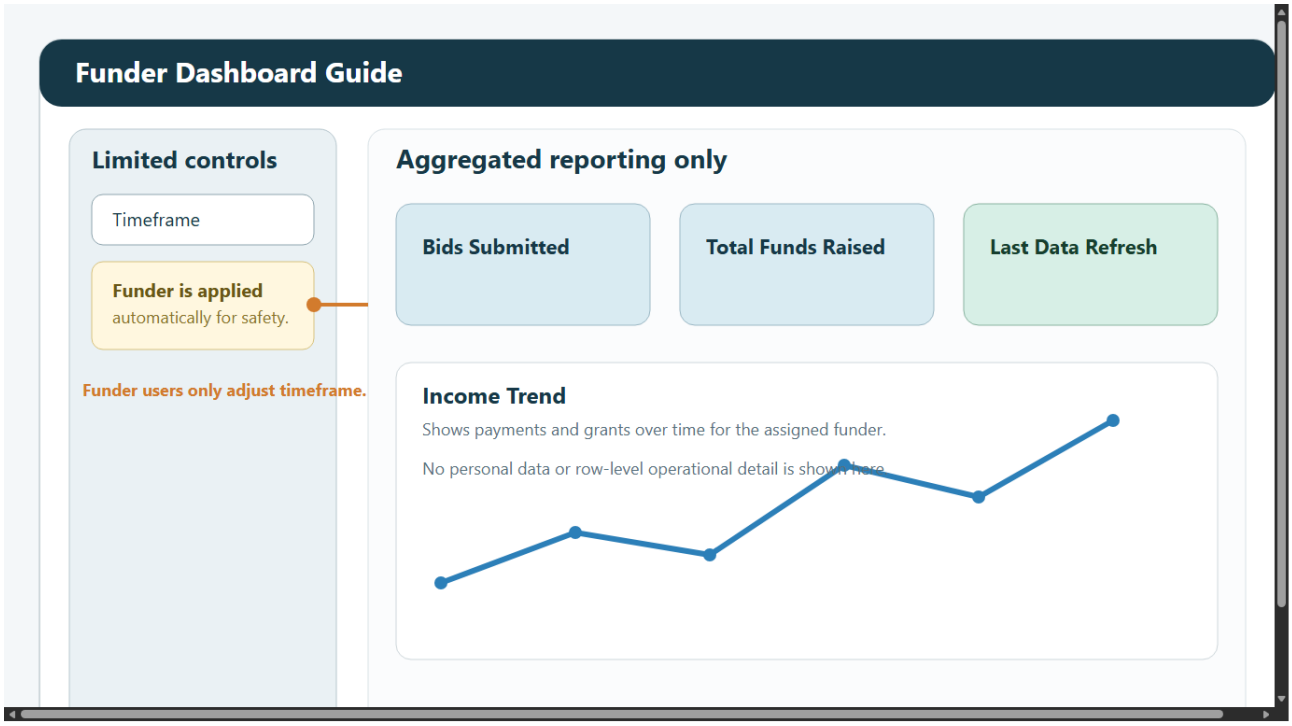
ML Dashboard



Best for:

- selecting one event
- reviewing attendees
- checking medical and emergency information where available

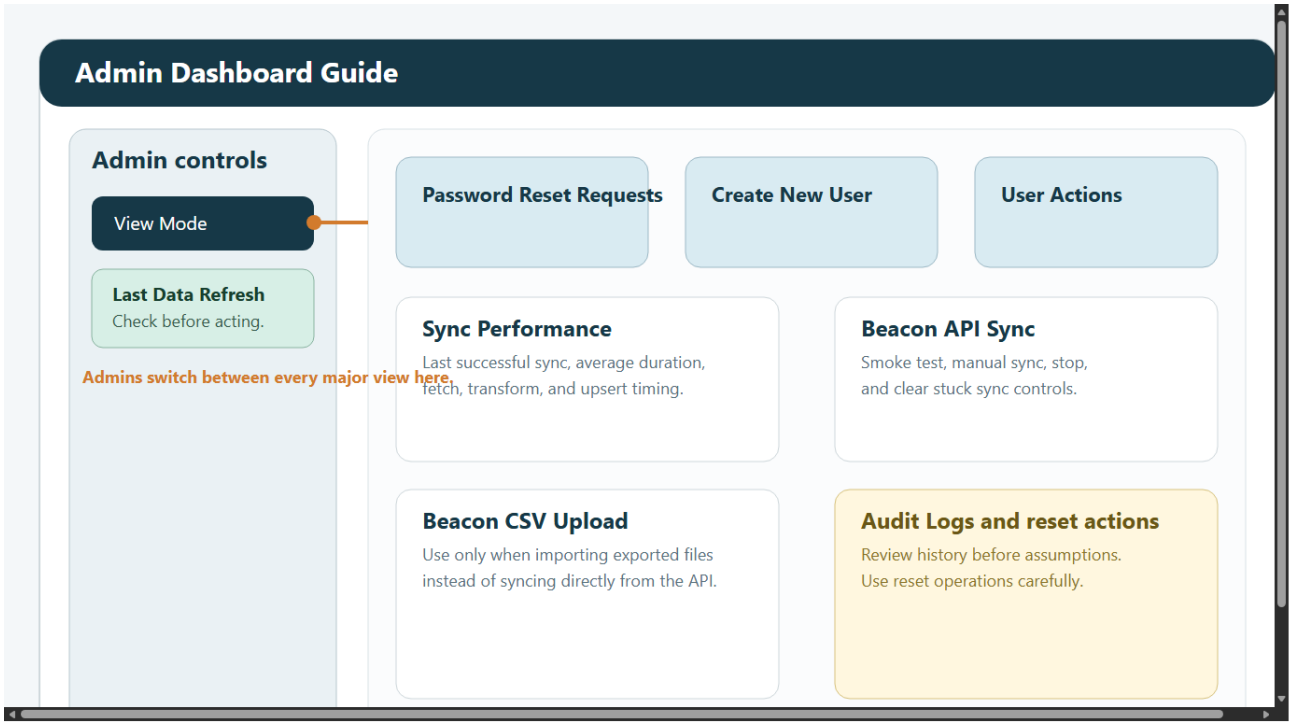
Funder Dashboard



Best for:

- GDPR-safe sponsor reporting
- bids submitted
- funds raised
- income trend

Admin Dashboard



Best for:

- user administration
- password reset handling
- sync monitoring and control
- audit review

6. Role-by-role operating guide

RPL

Use RPL access for:

- KPI monitoring
- self-service reports
- CSV export
- case study uploads

RPL users should move from KPI to Custom Reports when they need more than a headline number.

Manager

Use Manager access for:

- KPI validation
- event and participant investigation
- sponsor-facing review
- broader operational analysis

Managers can see attendee names and IDs in KPI delivery drill-downs where the data exists.

ML

Use ML access for:

- reviewing one event at a time
- checking participant information before delivery
- reading or adding case studies

Admin

Use Admin access for:

- creating and updating users
- resetting passwords
- running sync checks and manual refresh activity
- reviewing audit logs

Funder

Use Funder access for:

- summary-level funding oversight
- time-based review of bids and funds raised
- checking refresh recency

7. Common workflows

Check a KPI

1. Open `KPI Dashboard`.
2. Set region and timeframe.
3. Choose the correct KPI section.
4. Click the KPI card to inspect supporting rows.

Run a report

5. Open `Custom Reports Dashboard`.
6. Choose datasets and output type.
7. Set region and timeframe.
8. Click `Apply Report Filters`.
9. Optionally use `Advanced Report Controls`.
10. Click `Apply Advanced Filters`.
11. Export CSV if required.

Investigate participant travel

12. Open `Custom Reports Dashboard`.
13. Set `Output Type` to `Distance Analysis`.
14. Keep `Events` selected.
15. Apply filters.
16. Drill down into a selected event.
17. Review or export the participant journey rows.

Review a live or recent event

18. Open `ML Dashboard`.
19. Set region and timeframe.
20. Choose the event.
21. Review event details and participant information.

Handle a password reset

22. Open `Admin Dashboard`.
23. Open `Password Reset Requests`.
24. Set a temporary password.
25. Tell the user to change it on next login.

8. Troubleshooting

No data appears

- widen the timeframe
- try `All Regions` where available
- confirm you are in the correct dashboard view

Reports do not refresh

- click `Apply Report Filters`
- click `Apply Advanced Filters`

Participant names are missing

- not every event provides names in Beacon
- RPL users do not get named attendee detail in KPI participant drill-down

Dashboard looks stale

- check `Last Data Refresh`
- ask an Admin to review sync status if needed

Funder data looks empty

- widen the timeframe
- confirm the selected or assigned funder has matching records

9. File guide

Role manuals:

- `docs/manuals/RPL-MANUAL.md`
- `docs/manuals/MANAGER-MANUAL.md`
- `docs/manuals/ML-MANUAL.md`
- `docs/manuals/ADMIN-MANUAL.md`
- `docs/manuals/FUNDER-MANUAL.md`
